

OBJECTIVE

Empower Branson's attractions with cost-effective, co-op marketing solutions that expand reach, drive visitation and deliver measurable ROI — while eliminating agency commissions or retainers.

STRATEGY

Gray partnered with the Branson CVB to launch a multi-platform co-op campaign backed by a 1:1 match from the CVB. The initiative began with in-person and virtual seminars to educate the tourism community, followed by one-on-one consultations with each participating attraction. Customized, multi-platform strategies were built for every partner, supported by video content production (:15/:30 spots) and live dashboards for transparent performance tracking.

RESULT

Strong positive response from the tourism community, many of whom had previously only accessed limited paid search options.

Attractions gained personalized campaigns, tailored media strategies and measurable dashboards.

The CVB now benefits from a roll-up dashboard offering a complete analysis of campaign performance, while each business has access to individual campaign results.
